## A FREE RIVER.

Major Hoxie's Report on the Monongahela River's Needs.

### WORTH OF THE DAVIS ISLAND POOL.

And Other Improvements About Pittsburgh—Location of Lock No. 10 Near Morgantown—Work on Cheat River—Money That Has Already Been Expended—Work Done by a Private Firm.

WASHINGTON, D. C., July 14.—The report of Major Hoxie, United States engineer in charge of the government works on the Monongahela river in West Virginia and Pennsylvania, and the Allegheny and Cheat rivers, was made public to-day at the war department.

The story of the improvements on the Monongahela river is pretty thoroughly rehearsed, beginning with the construction of locks and dams Nos. 8 and 9, which were completed in 1889. With regard to the work on the additional lock and dam to be known as No. 10 the report states that a survey has been made for the purpose of determining the location of this dam, which will be near Morgantown.

Major Hoxie states that the interests of navigation would require the lock to be fixed at Falling Run, below Morgantown, and this location would also be of benefit to the town. There has been a good deal of local opposition encountered and negotiations are now in progress to reconcile the conflicting interests. There has been appropriated for this dam the sum of \$25,000, which is too small to justify the commencement of the work.

ESTABLISHMENT OF HARBOR LINES.

The report devotes some space to the subject of encroachments upon the navigable channels of the Ohio, Allegheny and Monongahela rivers about Pittsburgh. It states that a board of engineers have had under consideration the establishment of harbor lines about the city to replace those which were established by the state on these rivers. The lines have been decided upon, and the report states that these new lines have condemned some of the offenses committed by former encroachments upon the river.

The district attorney has been notified of this and suits against some parties have been discontinued. Major Hoxie states that there is a general disposition upon the part of the public to observe the limitation imposed by the new harbor lines, and he thinks there will be little difficulty in the future.

The report calls attention to the needs of the Monongahela river from its mouth up to dam No. 1, of the Monongahela Navigation Company. This part of the river lies within the influence of the Davis Island pool.

DREDGING IS NEEDED.

The great advantage of the Davis Island pool is the fact that coal barges are enabled to be brought out loaded from the Monongahela pool at seasons of comparatively low water in the natural rivers, and they can be made up into floats in the Davis Island pool, ready for shipment on a coal boat rise in the Ohio, thereby saving as much as three days valuable time.

When the water becomes low in the Davis Island pool there is not water enough in this stretch of the Monongahela to float heavily laden barges over Piketown bar. The report recommends that dredging be done at this bar, and the proper relief could be secured.

In pools 8 and 9 obstructions have been removed during the year of snags, logs, trees, etc., amounting to 2,437 tons. At lock number 8 repairs were made to the bank protection and operating machinery. The apron of the dam was injured by ice and high water during the past winter and will need repairing. At lock number 9 repairs of a minor character were made and new lock gates were constructed. The dam is reported to be in excellent condition.

FOR A FREE MONONGAHELA.

Major Hoxie devotes some space to the proposition that the government purchase the plant at lock and dam No. 7 of the Monongahela Navigation Company. The report recites the history of the several suits in the United States circuit and supreme courts, and quotes the decision of the latter that Congress in its purpose to take the property of the company did not, by its acts, destroy the franchises granted to the company by the state. This was a reversal of the judgment by the circuit court, and the case was remanded with instructions to grant a new trial.

The last Congress, by resolution, determined to ascertain the "sum of money necessary to acquire by purchasing the locks and dams of the Monongahela river, belonging to the Monongahela Navigation Company, as a whole, and separately, and also to take testimony as to the value of said improvements and the commercial importance of free navigation of said river; to the end that Congress may determine as to the expense of making the navigation of said river free from tolls."

Major Hoxie says the Monongahela Navigation Company declined to sell its property, and that the testimony required by Congress is now being taken, and has been requested from all parties interested.

WORK ON CHEAT RIVER.

As dam No. 7, over which all this controversy has arisen, has not yet been acquired by the government, the appropriation of \$167,000 to purchase dam No. 6 remains unexpended.

The report shows that no work has been done by the United States government on the Cheat river, W. Va., during the past year, inasmuch as the appropriation for that river was exhausted in January, 1892. Dawing & Sons, lumber dealers at Port Marion, have expended \$3,200 in improving the Cheat between Green Island and the mouth of the river. This is in addition to \$2,800 which they had expended along the river between Rowlesburg and the mouth prior to the operations by the government.

On the Allegheny river the report shows that dike No. 1, at Cowanshannon, was completed during the past year. Repairs were made to the dam and abutments at Tionesta of injuries caused by the heavy scour of that place. Obstructions aggregating 6,511 tons of rock, and 72 snags were removed from the channel of the Allegheny.

The land necessary for the lock and dam at Herr's Island has been acquired and all legal difficulties settled. Work on this improvement will be pushed to completion during the present season.

TRAVELERS find a safe companion in Dr. Williams' Pink Pills for Pale People. A change in drinking water and in diet, often causes severe and dangerous complaints. This medicine always cures them. Logan & Co., Wheeling, W. Va., B. F. Peabody, Benwood, Bowie & Co., Bridgeport, O.

## BISHOP PETERKIN

Carrying Out the Plan in Connection With the University, Announced Some Time Since.

Special Trips to the Intelligencer.

PARKERSBURG, July 14.—Rev. George W. Peterkin, bishop of the Episcopal diocese of West Virginia, is taking great interest in the work of the state university at Morgantown, and his interest is of that practical sort so characteristic of him. Having bought the residence of Prof. John L. Harvey at Morgantown, he is having it enlarged and made into a university home or dormitory for young men while attending the university. It will have a parlor, reading room, etc., and all of the comforts and advantages of a refined Christian home. The bishop has secured Rev. James Sheerin and wife, now of Axtubula, O., to have charge of this building. They will reside there, and Mr. Sheerin will also be the rector of the Episcopal church at Morgantown.

The bishop says that by the opening of the university year, September 11, he will be able to accommodate fifteen young men, and his intention is to enlarge his facilities as occasion demands.

He is an enthusiastic friend of the university, and believes that West Virginians will find it greatly to their advantage to attend that institution rather than to go out of the state, especially so as tuition is free in all departments, even the professional school, civil engineering, mechanical engineering, etc.

The bishop will shortly issue a circular letter to all his clergy concerning his plans.

WINDOW GLASSWORKERS

Will Not Desert the Knights of Labor.

Hayes Makes an Effective Speech.

PRESSBURG, July 14.—The Window Glassworkers' Association will not desert the Knights of Labor.

While no formal decision has been made by the convention, it is certain from the developments of yesterday that the great labor union is in the order to stay. Many of the delegates were brought to a realization of this fact unwillingly by General Secretary-Treasurer John W. Hayes. They must remain with the old Knights of Labor whether they choose or not. It will be a bitter pill for many of them.

The association possesses cash, bonds, stocks and mortgages aggregating a half million dollars or more. This wealth belongs to Local Assembly 390, Knights of Labor, which is the proper name of the glass workers' organization. It is an integral part of the order of the Knights of Labor. Under the law of the order, which has been sustained in numerous cases by the courts, ten members of an assembly can hold its charter and all funds accumulated by the withdrawing membership.

Secretary Hayes notified the convention yesterday that more than the required number of members were ready to continue working under the Knights of Labor charter, even if the majority of the members pulled away. He convinced the delegates that the funds and property would go to the remnant of the organization holding the charter.

WILL NOT LOSE THEIR WEALTH.

The probability of losing this wealth decided the course of the association at once. After Hayes' explanation of the Knights of Labor law covering the case the delegates who wanted to withdraw changed front. It is as good as settled that the association will now pay up its per capita tax.

THE PLANT WORKERS.

They Enjoy a Banquet—Business Being Rushed Through.

TOLEDO, Ohio, July 14.—The American Flint Glassworkers' convention took a Saturday half-holiday yesterday. Business has been pushed and President Smith looks for an adjournment by Wednesday next.

The shade, paste mold, iron mold, hold making and engraving committees will have their reports ready to present to the convention to-morrow. They will all be adopted without much debate. The prescription committee will probably be the last trade committee to finish up. It is thought that they will not recommend any advance in wages over last year's scale.

Elwood, Ind., and Alton, Ill., are making the big fight for the next convention. Steubenville, it is said, will put in a claim when the matter comes up. The auditing committee reported the officers' accounts in first class shape at the morning session, and were discharged with the thanks of the convention. Three hundred persons attended the banquet last night. Speeches were made by Mayor Major, Alderman Follows and Editor Fleming, of the Toledo Bee.

BRITISH ELECTIONS.

Indications are that the Unionists will Have a Big Majority.

LONDON, July 13.—There were 22 contested elections in England to-day, and the returns at midnight show that the Unionists have gained eight seats, or a proportion of more than one-third. This indicates an overwhelming Unionist majority in the next house.

The most astonishing fact is the defeat of Sir William Harcourt in Derby, regarded hitherto as the very heart of Liberal England. He had over 4,000 majority at the bye election in 1892, and his re-election was never doubted. But he is now defeated by some 1,700 votes.

There can be no doubt that this is due to Sir William's local vote bill. The keepers of the public houses, otherwise our barkeepers, united, with all their following, with the Tories the church party and the anti-Irish people.

As explained in my dispatch May 11 last, every government has been wrecked which has antagonized this liquor interest. It will obviously tri-

Mrs. Anna Gage, wife of Ex-Deputy U. S. Marshal,

umph at this election at the cost of the defeat of many measures in behalf of the people, to which the liberal party is pledged, but which the Tories will construe as the result of the present election as the verdict of the nation.

THE END OF DAYS.

Saturday's Great Meeting on the Common Grounds Interfered With by Rain—Order Not Dampered.

BOSTON, July 14.—The weather man, after bestowing upon the Christian Endeavor convention since Wednesday, when the convention opened, his finest weather, yesterday sought to serve Satan by destroying the order of the Endeavor army, in sending down a deluge of rain just as the assault upon Mammon was about to culminate in the great outdoor religious gathering announced to take place this noon upon Boston's historic common.

On that green, a vast assemblage, estimated at between 40,000 and 50,000 persons, was ready at the midday hour to begin what would have been the greatest religious gathering in the history of the world. The clear sky of the early morning was already marred by ominous clouds, and President Francis E. Clark glanced fearfully skyward, but opened the services at the appointed hour.

Then came the heavy rain, but the discomfort of thousands or dripping umbrellas did not prevent a mighty rendition of "Onward, Christian Soldiers." Dr. S. F. Smith, author of "America," was then introduced, and the thousands sang a verse of that hymn in compliment to its author.

By this time, the rain was falling in torrents and President Clark announced an adjournment to the big tents, Endeavor and Williston, nearby. About 15,000 found seats and the remaining thousands went away.

In the "Tent Williston," S. B. Capen, of Boston, first introduced Lieutenant Governor Wolcott, who spoke for Governor Greenhalge. Lieutenant Governor Wolcott's remarks about the principles of the society, as interwoven in the fabric of "Good Citizenship," the subject of all of the day's large meetings, were most happy.

Rev. Donald McLaren, D. D., of Chicago, made the principal address of the afternoon, continuing upon the theme of the day. The services closed with the singing of a special hymn, written by Dr. Smith.

In "Tent Endeavor," Rev. Jeremiah Boynton, of Boston, presided. After song and prayer, Dr. Smith read an original poem, and Mayor Curtis, of Boston, followed with an address on "American Citizenship."

In Mechanics' building, after the meetings of the Common had ended, the junior rally was held. Thousands of little Endeavorers and hundreds of bigger ones attended the meeting, which was one of the most enthusiastic of the week. The pledge exercise of the Juniors, in which the children together recited the pledge, was a novel one.

MARTIN'S FERRY.

Haps and Mishaps in the Tarrying City Across the River.

The open air meeting in Walnut Grove yesterday afternoon under the auspices of the Y. M. C. A. was addressed by Rev. Dr. J. W. Robins.

George Habberfield returned to Cadiz on his wheel last evening. He went to Freeport to hear Talmage and came on to Martin's Ferry.

Communion was held in the Presbyterian church yesterday. Rev. S. J. Bogle, pastor, was assisted by Rev. Samuel Boyd.

Fifty dollars and costs and sixty days in jail is what Mayor Westwood gave Albert Milligan for wife beating.

Frank Coos, the young man who died at Bridgeport on Friday, was buried at Riverview cemetery yesterday.

Saturday night James Ralston and Ellis Lash left for Stillwater to spend the week hunting and fishing.

The Jolly Pathfinders' Fishing club, of Martin's Ferry, caught forty-eight fish near Clarington Friday.

Miss Sue Barr leaves this week to visit friends in several towns, and expects to be gone about six weeks.

Ed S. Houghton, Leo Morris, Port Coleman and Bert Vennum spent Sunday at Moundville.

Mr. and Mrs. James Tannehill have returned from a visit with their daughter at Fostoria.

Miss Maggie McWilliams goes to Moundville to-day to visit her sister.

James Johns was married last week to Miss Lefore, of Penbrook, Canada.

Will Crowl and his sister, Mrs. J. M. Turner, have returned from Freeport.

Aug. Henchel went to Huttonsville, W. Va., last night to visit relatives.

Miss Ida Hoyle has returned from a visit to friends at Barnesville.

Mrs. Joseph Hilton is visiting her mother at Cambridge.

William T. Williams is visiting his parents in Iowa.

Chas. Davidson goes to Mingo to-day.

Guaranteed Cure.

We authorize our advertised druggist to sell Dr. King's New Discovery for Consumption, Coughs and Colds, upon this condition. If you are afflicted with a cough, cold or any lung, throat or chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We would not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottle free at the Logan Drug Co.'s drug store. Large size 50c.

When occasion demands its use, try Dr. Williams' Witch Hazel Salve. It is cooling to burns, stops pain instantly, cleanses, a perfect remedy for scalds or skin eruptions. Always cures piles. Logan Drug Co., Wheeling, W. Va., B. F. Peabody, Benwood, and Bowie & Co., Bridgeport, O.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Logan Drug Company.

Last June Dick Crawford brought his twelve-month-old child, suffering from infantile diarrhea, to me. It had been weaned at four months old and had always been healthy. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to give Chamberlain's Colic, Cholera and Diarrhoea Remedy. Before one bottle of the 25-cent size had been used a marked improvement was seen and its continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by this Remedy. J. T. Manlow, M. D., Tamarac, Ill.
